Education

Bennett University

B.Tech, Computer Science and Engineering — CGPA: **8.25 / 10**

Greater Noida, UP, India

2024 – 2028

Experience

Zarva (Early-stage Startup)

Remote

Full Stack Developer

Oct 2025 – Mar 2026

- Prototyped a **Flutter** mobile app for an early-stage startup, working directly with the founders to take the product from idea to working demo.
- Developed app features end to end, from UI screens to backend integration, and reworked them as product requirements changed.

Projects

SAHAY-AI — Real-time Trauma Assessment | *Python, FastAPI, WebSockets, SQLAlchemy, PostgreSQL* | [GitHub](#)

- Led backend development in a **6-member** Smart India Hackathon team, delivering a working MVP for the National Helpline Against Atrocities (14566) in **2 weeks**.
- Engineered **REST and WebSocket APIs** with JWT/RBAC, consent controls, ASR/TTS voice integration and role-filtered escalation alerts for helpline staff.
- Migrated a **15-table** schema to Supabase PostgreSQL with Alembic, TLS and row-level security; wrote **200 backend tests** and held voice-turn latency at **581 ms p95**.

GymFlow — Gym Membership Platform | *React 19, TypeScript, Firebase, Google Apps Script* | [GitHub](#)

- Deployed a production member/admin platform on Vercel serving **2 gyms** and **30+** members, with Firebase Auth, Firestore and per-gym **UPI QR** payments.
- Automated membership-expiry reminders with Google Apps Script and **WhatsApp** notifications, removing manual follow-ups for admins.

PalmChef — Hands-free Cooking Assistant | *React 18, Node.js, MongoDB, Gemini API, MediaPipe* | [GitHub](#)

- Built touch-free recipe navigation using **MediaPipe** hand gestures, **Gemini**-generated recipes, voice guidance, timers and **offline PWA** support.
- Designed an Express/MongoDB backend with JWT authentication and containerized it with **Docker** and **Nginx** for one-command deployment.

FloatChat / ARGO Mobile — Ocean Data App | *Flutter, Dart, flutter_map, latlong2* | [GitHub](#)

- Developed the **Flutter** client single-handedly for a team ARGO ocean-data platform, covering interactive float maps, depth profiles, alerts and data downloads.
- Integrated a conversational query demo that lets users explore ocean data in plain language across **8** screens.

Leadership

Placement Committee Member | *Career Services Center, Bennett University*

Aug 2026 – Present

- Coordinate campus placement drives with **5+** recruiters, managing scheduling and communication for **500+** students.

Sub Head – Operations | *Bennett University Student Council*

Jul 2025 – May 2026

- Led a **4-member** operations team running **24/7 logistics** for the three-day Uphoria fest with **5,000+** attendees.

Core Team Member | *GeeksforGeeks Society*

- Organized **3** technical events and workshops, handling planning, documentation and execution for **150+** participants.

Achievements

- **Smart India Hackathon:** Top 100 in second year; **6th among 590 teams** in third year.
- **Competitive Sports:** District-level Boxing **Silver** and State-level Fencing **Bronze** medalist.
- **Certifications:** NPTEL **Elite** – Software Engineering, IIT Kharagpur (2025); Deloitte Australia Data Analytics Job Simulation.

Technical Skills

Languages: C++, Python, Java, JavaScript, TypeScript, Dart, HTML, CSS

Frontend & Mobile: React 18/19, Flutter, Vite, Tailwind CSS, Zustand, React Router

Backend & Databases: Node.js, Express.js, FastAPI, WebSockets, MongoDB, PostgreSQL (Supabase), Firebase, Firestore

AI & APIs: Gemini API, MediaPipe, Web Speech API, Google Sheets API, Apps Script, REST APIs, JWT

Tools: Git, Docker, Nginx, Vercel, Render
